5th Federal Show Sports Ponys

Category	Date	Time:	Location
Public Event	January 18, 2019	10:00 - 15:00	Hall 25

Round about 160 stallions are competing at the 5th Federal Stallion Show on the International Green Week 2019.

The show of the sports ponys takes place from January 18th to 20th. Four- to twelve-year old stallions from the breeds German Riding Pony, New Forest Pony, Connemara Pony and Welsh Pony of the selection A, B and C as well as Welsh Cob are participating. From January 21st to 22nd the stage is free for four- to twelve-year-old stallions from the breeds Shetland Pony, German Part-Bred Shetland Pony, German Classic Pony, Dartmoor Pony, Dülmener, Fell Pony, Highland Pony and Mérens. Participating stallions must be registered in the relevant stud book of a breeding association. You can find detailed information about horse breeding at the stand of the German Equestrian Union in hall 25.

Organiser: German Equestrian Union, Federal Association for Equestrian Sport and Horse Breeding

Blooming City: Urban scenery in bloom in January

Landgard and “Flowers – 1000 good reasons” add decorative and creative diversity to the Floral Hall at the International Green Week Berlin 2019

When the predominant colour in Berlin in January is a wintery grey, Landgard and the initiative “Flowers – 1000 good reasons” will be focussing on the floral attractions of a vibrant capital city.

From 18 to 27 January Hall 9. the Floral Hall at the International Green Week Berlin 2019, will be using flowers and blossoms to transform many different urban settings. Under the slogan “Blooming City: colourful – creative – natural”, for ten days visitors to the Green Week will be captivated by

Subject to further change

this floral diversity and its aesthetic attractions, along with activities by opinion-formers, and the chance to win prizes in various competitions. Landgard, one of Europe’s largest cooperative marketing organisations for plants and flowers, fruit and vegetables, is responsible for designing the Floral Hall at the IGW 2018.

Hall 9 will again present the miracle of flowers

There are other aspects to the slogan “Blooming City: colourful – creative – natural“, that have a particular social relevance to the efforts intended to make our cities greener. Whereas urban gardening represents small-scale implementation at an individual level, modern urban planning is basically concerned with the appearance of the cities in which we will be living in the future. In order to accommodate all the attractive displays of horticulture and urban planning, the Floral Hall is returning to Hall 9, its home for many decades until 2015. It offers 7,500 square metres of exhibition space, where urban scenery can be recreated using over 60,000 flowers and more than 30,000 re-usable pallets. Having met with a positive response, 2019 will feature even more workshops where, for a small charge, visitors can join in and create modern pieces of work under professional supervision, which they can then take home with them. The direct sale of flowers and plants to visitors in the hall is another new feature in 2019.

GFFA 2019 - Global Forum for Food and Agriculture

Category	Date	Time:	Location
Trade Event	January 18, 2019	10:00 - 18:00	CityCube Berlin

The 11th Global Forum for Food and Agriculture (GFFA) will be held in Berlin from 17th to 19th January 2019 on the subject "**Agriculture Goes Digital – Smart Solutions for Future Farming**".

The Global Forum for Food and Agriculture (GFFA) is an international conference that focuses on central questions concerning the future of the global agri-food industry. It gives representatives from the worlds of politics, business, science and civil society an opportunity to share ideas and enhance understanding on a selected topic of current agricultural policy.

Sign up at: <https://www.gffa-berlin.de/en/>

Organiser: Federal Ministry of Food and Agriculture

Events

09:00 - 16:00

Future Forum GFFA 2019

The Future Forum is a new GFFA format and, combining a contemporary exhibition area and an open stage, it is meant to offer a lively space for an interactive exchange between established and new stakeholders within the GFFA 2019. The multimedia presentation of start-ups showcasing their innovative and practice-oriented ideas of the agri-food sector plays a central role in this context.

Emerging start-ups have the opportunity to provide information on their digital products and services, to exchange experience and to establish new contacts with potential partners and investors.

At the same time, international GFFA visitors are provided with new ideas and information on concrete projects or digital solutions concepts for various challenging areas of agricultural practice at home and abroad by engaging in talks with diverse players and sharing their brief presentations on an open stage.

For more information please see: <https://www.gffa-berlin.de/en/future-forum-gffa-2019/>

Organiser: Federal Ministry for Food and Agriculture

INTERNATIONAL GREEN WEEK
18 – 27 JANUARY 2019

09:00 - 16:00

Innovation Market GFFA 2019

The former Cooperation Market is now being developed into the Innovation Market. It is our objective to increase communication and make the market more attractive by providing new participants, in particular start-ups with the opportunity to present their projects, developments and ideas on this year's theme of "Agriculture Goes Digital – Smart Solutions for Future Farming". The Innovation Market is a platform for new concepts, practical examples and pioneering solutions.

As usual, around 30 associations, companies, executing agencies, universities and BMEL divisions will be present to provide an insight into their activities in the agri-food sector, develop existing relationships and establish new contacts.

For more information please see: <https://www.gffa-berlin.de/en/innovationsboerse/>

Organiser: Federal Ministry for Food and Agriculture

10:30 - 11:45

GFFA 2019 Expert Panel Discussions: 3rd session

The expert panel discussions provided an informative platform to illustrate the different perspectives and exchange views with an interested expert audience.

Going digital against the drought. New technologies and challenges in their implementation

Organiser: German Agribusiness Alliance at German Eastern Business Association, Leibniz Institute of Agricultural Development in Transition Economies (IAMO), German-Sino Agricultural Center

Digital technologies for agri-food chains: High potential – critical gaps

Organiser: Leibniz Research Alliance "Sustainable Food Production and Healthy Nutrition", Organisation for Economic Co-operation and Development OECD

Digitalization: Utopia or dystopia? The end of the resource crisis or unlimited corporate power over our food?

Organiser: INKOTA-network, Bread for the World, Forum on Environment and Development

Digitalization and Finance: Creating Opportunities for African Farmers

Organiser: German African Business Association, German Agribusiness Alliance

What is cooking: Re-thinking farm and food policy in the digital age

Organiser: The World Bank Group

For more information please see: <https://www.gffa-berlin.de/en/gffa-2019-fachpodien/>

Organiser: Federal Ministry for Food and Agriculture

12:15 - 15:15

GFFA 2019 High Level Panels

The two high-ranking High Level Panels featuring international experts give international organisations the opportunity to present their work on the GFFA theme of "Agriculture Goes Digital – Smart Solutions for Future Farming" to up to 500 guests and to discuss possible solutions and challenges. For the GFFA 2019, the European Commission and the Food and Agriculture Organization of the United Nations (FAO) were chosen as hosts by the Federal Ministry of Food and Agriculture. The international organisations will present the findings of the discussions at the Conference of Agriculture Ministers on 19 January 2019.

For more information please see: <https://www.gffa-berlin.de/en/programmuebersicht-gffa-2019/high-level-panels-2019/>

Organiser: Federal Ministry for Food and Agriculture

14:00 - 15:15

"Think Loud!" GFFA 2019 Science Slam

During the 11th GFFA, a "Science Slam" will be organised for the first time thus linking the GFFA on "Agriculture Goes Digital – Smart Solutions for Future Farming" with the BMEL Special Show at the International Green Week 2019.

Following a short welcome and introduction by a facilitator, a maximum of five slam presentations related to the GFFA focus issue of "digitisation" of no more than 10 minutes each will be presented on the BMEL stage by various scientists from BMEL departmental research facilities and relevant universities at this entertaining event. The audience in the BMEL exhibition hall 23a will be the jury and will decide who the winner is to be awarded a special BMEL prize.

Subject to further change

A science slam is a scientific talk competition where scientists present their research work within a given time frame (usually 10 minutes) to a mixed audience. The focus is on communicating scientific concepts to a non-expert audience. The presentations are evaluated by the audience (e.g. via score boards). Apart from the scientific contents, the comprehensibility and the entertainment value are also rated. Because of its innovative combination of scientific technical presentation, sporty competitive nature and entertainment features, the science slam is a hybrid format of scientific communication.

For more information please see: <https://www.gffa-berlin.de/en/science-slam-2019/>

Organiser: Federal Ministry for Food and Agriculture

16:00 - 17:15

Organiser: Federal Agency for Food and Agriculture

16:30 - 18:00

GFFA 2019 EU Africa Alliance in Agriculture - the way forward

Relations with Africa have gained a high profile on the EU external action agenda. The outcome of the 5th Africa-EU Summit in November 2017, and the joint declaration that will guide our cooperation till 2020, acknowledged that cooperation in agriculture will be crucial for a sustainable future.

The European Union is engaging with Africa beyond “business as usual”, re-thinking the traditional development cooperation model to complement EU development assistance and trade relations with a stronger focus on ‘investments and policy dialogue’.

The European Commission Directorate-General for Agriculture and Rural Development in cooperation with the Directorate-General for Development Cooperation set up a Task Force Rural Africa (‘TFRA’) in spring 2018. The TFRA consists of 11 members with high-level expertise and experience in agriculture and rural development in Africa and in Europe.

This group of experts has been asked to provide expertise, advice and recommendations in relation to strengthening the EU-Africa partnership in food and farming activities, including the use of digitalisation in job creation in rural Africa.

TFRA chairperson, Mr Tom Arnold, will provide an overview about the work of the Task Force and present the proposals and recommendations for discussion with the participants of the “Fachpodium”.

For more information please see: <https://www.gffa-berlin.de/en/gffa-2019-task-force-rural-africa/>

Professional Center

Category	Date	Time:	Location
Trade Event	January 21, 2019	10:00 - 18:00	Marshallhaus

Explore our Professional Center at IGW 2019 at the Marshallhaus from 21th to 25th January: central, kompact and exclusive for registered trade visitors only.

That means: less stress, less distraction, less loss of time. Thus, we correspond to the desire for a professional meeting and discussion platform as a consistent development of the Retailers´ Day. We invite food retailer from Berlin/Brandenburg and from the neighbouring federal states and additionally relevant trade visitor groups in cooperation with the *Lebensmittelpraxis* and *DEHOGA* to our trade center. Buyers, retailer, caterer and F&B managers can discover and taste regional features and specialities from German federal states and also from official represented international countries in a direct way.

Additionally, we offer numerous free services to our trade visitors to enable a completely efficient fair attendance:

- Free parking spaces in the ICC car park (depending on availability)
- Information and planning tools for a perfect preparation with the IGW Virtual Market Place and the Networking Tool Lounge area at the Marshallhaus
- free WiFi and soft drinks
- a trade press counter with trade press booth

Fuels of the Future 2019

Category	Date	Time:	Location
Trade Event	January 21, 2019	10:00 - 18:30	CityCube Berlin

16th International Conference on Renewable Mobility "Fuels of the Future"

Overview of topics

Framework conditions for renewable mobility of the future

The role of biofuels in climate protection and development of renewable mobility. What prospects does EU policy offer for renewable mobility in the run-up to 2030 and beyond? Renewable mobility in Europe – differing perceptions of political decision-makers and the industry. Perspectives of automotive

Subject to further change

industry and mineral oil industry.

Biofuels within the context of synthesized fuels

Importance of biofuels from biomass within the Renewable Energy Directive (RED II) as a contribution to fighting climate change in transport. Synthetic biofuels - how can they support climate protection?

Biofuels established on the market

Biodiesel, bioethanol, vegetable oils: Which market developments should be monitored? What kind of technological optimization can we expect? Presentation

of results from various research projects examining biodiesel. Emission reduction potential of ethanol-containing petrol fuels. Outlook for trade and market development and the availability of feedstocks for biofuels.

Electromobility

Future of electromobility: Electric drives in conjunction with internal combustion engines or pure electric drives? What is the state of play in infrastructure expansion to ensure electromobility can be rolled out across the country?

Biomethane and Power-To-X

Which opportunities and obstacles exist for biofuels produced from biomethane? Which synergies between power-to-gas and biomethane production can be identified? How has biomethane developed compared with international standards? Comparison of the climate impact of drive systems: Fossil fuels, bio, PtX or battery.

Alternative biofuels

What prospects exist for biofuel production from carbon recycling? What technical challenges arise in recycling waste into biofuels? Importance of liquid alternative fuels for climate protection and market development.

Parallel forums

During the two-day conference, market developments, current research results and practical experience with market-tested and new biofuels will be presented in 13 forums and a panel discussion. This year we are again expecting over 500 international participants.

10:20

Biofuels within the Federal Government's mobility and fuel strategy

N.N., State Secretary Federal Ministry for Transport and Digital Infrastructures (BMVI)

10:40

Future of renewable mobility in the context of new fuels and drive trains

tbc, European Parliament

11:00

Renewable Energies and biofuels to help reduce CO₂ emissions in road transport

Wolfgang Langhoff, Chairman of the Board, BP Europe SE

12:00

From E-fuel to E-Car - Innovative drive train strategies

Bernhard Mattes, President German Association of the Automotive Industry (VDA)

12:20

Discussion

Subject to further change

INTERNATIONAL GREEN WEEK
18 – 27 JANUARY 2019

13:00

Lunch break

Participation Fee:

The participation fee for the conference "Fuels of the future 2019 (including food and drinks during the conference days, lunch buffet and evening reception)

- 690,- EUR (+19% Mwst) registration until 30th of November 2018
- 890,- EUR (+19% Mwst) registration from 1st of December 2018
- 490,- EUR (+19% Mwst) for members of the organizers
- 190,- EUR (+19% Mwst) student (student identity card necessary)
- Press: free (Press card necessary)

The number of participants is limited. Valid is the order of registration.

Please note that you can only participate when the full fee has been paid.

For more information please see: <https://www.fuels-of-the-future.com/englisch/>

Organizers: Federal Bioenergy Association (BBE), Union for the Promotion of Oil and Protein Plants (UFOP), German Bioethanol Industry Association (BDBe), Association of the German Biofuel Industry (VDB) and the German Biogas Association

14:00 - 15:30

Fuels of the Future - Panel Discussion: The Future of renewable mobility

Panel discussion: The Future of renewable mobility within the context of different drive train and fuel options

Chair: Sonja van Renssen, energy post

- Pekka Pesonen, Generalsekretär, COPA/COGECA
- Dr. Ruprecht Brandis, Director External Affairs BP Europe SE
- Dr. Klaus Bonhoff, Geschäftsführer NOW GmbH
- Jenny Walther-Thoss, Politische Referentin, WWF Deutschland
- Stefan Schreiber, Präsident des Verbandes der deutschen Biokraftstoffindustrie e.V.

Participation fee:

The participation fee for the conference "Fuels of the future 2019 (including food and drinks during the conference days, lunch buffet and evening reception)

- 690,- EUR (+19% Mwst) registration until 30th of November 2018
- 890,- EUR (+19% Mwst) registration from 1st of December 2018
- 490,- EUR (+19% Mwst) for members of the organizers
- 190,- EUR (+19% Mwst) student (student identity card necessary)
- Press: free (Press card necessary)

The number of participants is limited. Valid is the order of registration.

Please note that you can only participate when the full fee has been paid.

For more information please see: <https://www.fuels-of-the-future.com/englisch/>

Organizers: Federal Bioenergy Association (BBE), Union for the Promotion of Oil and Protein Plants (UFOP), German Bioethanol Industry Association (BDBe), Association of the German Biofuel Industry (VDB) and the German Biogas Association

16:15 - 18:30

Fuels of the Future - Biofuels within the context of synthesized fuels

Biofuels within the context of synthesized fuels

Chair: Dieter Bockey, Union zur Förderung von Öl- und Proteinpflanzen e.V. (UFOP)

16:15

Regarding the current level of importance for bio fuels from biomass within the Renewable Energy Directive (RED II) as a contribution to fighting climate change in transport

Subject to further change

INTERNATIONAL GREEN WEEK
18 – 27 JANUARY 2019

Dr. Franziska Müller-Langer, Deutsches Biomasseforschungszentrum gGmbH (DBFZ, German Research Center for Biomass)

16:35

Fighting climate change in transport - A call for action to reach the target from the perspective of both the German and the European petroleum industry - "Vision 2050"

Prof. Dr. Christian Küchen, Mineralölwirtschaftsverband e.V. (MWV, German Association of the Petroleum Industry)

16:55

Dena's lead study for an integrated energy transition - Framework conditions and recommendations to act on the energy transition in transport

Andreas Kuhlmann, Deutsche-Energie-Agentur (dena, German Energy Agency)

17:15

Synthetic biofuels - how can they support climate protection?

Joß Bracker, Peter Kasten, Institute for Applied Ecology

17:35

Discussion

18:30

End of the first conference day - Evening reception on the fairground of Messe Berlin

Participation fee:

The participation fee for the conference "Fuels of the future 2019 (including food and drinks during the conference days, lunch buffet and evening reception)

- 690,- EUR (+19% MwSt) registration until 30th of November 2018
- 890,- EUR (+19% MwSt) registration from 1st of December 2018
- 490,- EUR (+19% MwSt) for members of the organizers
- 190,- EUR (+19% MwSt) student (student identity card necessary)
- Press: free (Press card necessary)

The number of participants is limited. Valid is the order of registration.

Please note that you can only participate when the full fee has been paid.

Organizers: Federal Bioenergy Association (BBE), Union for the Promotion of Oil and Protein Plants (UFOP), German Bioethanol Industry Association (BDBe), Association of the German Biofuel Industry (VDB) and the German Biogas Association

Societal benefits of organic farming

Category	Date	Time:	Location
Trade Event	January 21, 2019	13:00 - 15:00	CityCube Berlin, Level 3 - room R3

Organiser: Thünen Institut

Fuels of the Future 2019

Category	Date	Time:	Location
Trade Event	January 22, 2019	09:00 - 16:30	CityCube Berlin

16th International Conference on Renewable Mobility "Fuels of the Future"

Overview of topics

Framework conditions for renewable mobility of the future

The role of biofuels in climate protection and development of renewable mobility. What prospects does EU policy offer for renewable mobility in the run-up to 2030 and beyond? Renewable mobility in Europe – differing perceptions of political decision-makers and the industry. Perspectives of automotive industry and mineral oil industry.

Subject to further change

Biofuels within the context of synthesized fuels

Importance of biofuels from biomass within the Renewable Energy Directive (RED II) as a contribution to fighting climate change in transport. Synthetic biofuels - how can they support climate protection?

Biofuels established on the market

Biodiesel, bioethanol, vegetable oils: Which market developments should be monitored? What kind of technological optimization can we expect? Presentation of results from various research projects examining biodiesel. Emission reduction potential of ethanol-containing petrol fuels. Outlook for trade and market development and the availability of feedstocks for biofuels.

Electromobility

Future of electromobility: Electric drives in conjunction with internal combustion engines or pure electric drives? What is the state of play in infrastructure expansion to ensure electromobility can be rolled out across the country?

Biomethane and Power-To-X

Which opportunities and obstacles exist for biofuels produced from biomethane? Which synergies between power-to-gas and biomethane production can be identified? How has biomethane developed compared with international standards? Comparison of the climate impact of drive systems: Fossil fuels, bio, PtX or battery.

Alternative biofuels

What prospects exist for biofuel production from carbon recycling? What technical challenges arise in recycling waste into biofuels? Importance of liquid alternative fuels for climate protection and market development.

Parallel forums

During the two-day conference, market developments, current research results and practical experience with market-tested and new biofuels will be presented in 13 forums and a panel discussion. This year we are again expecting over 500 international participants.

Information about registration and fees can be found [here](#)

For more information please see: <https://www.fuels-of-the-future.com/>

Organizers: Federal Bioenergy Association (BBE), Union for the Promotion of Oil and Protein Plants (UFOP), German Bioethanol Industry Association (BDBE), Association of the German Biofuel Industry (VDB) and the German Biogas Association

Events

09:00 - 11:00

Fuels of the Future - Forum 4A Power-To-X

Chair: Dr. Franziska Müller-Langer, German Biomass Research Center (DBFZ)

9:00

Compact Power-to-Liquid technology: insights into current projects

Dr.-Ing. Tim Böltken, INERATEC GmbH

9:20

Hydrogen electrolysis as a key element in PtX pathways - Scenarios for a massive scale-up

Patrick Schmidt, LBST - Ludwig-Bölkow-Systemtechnik GmbH

9:40

Industrial PT-methanol - the succes story of VulcanoITM

Ómar Freyr Sigurbjörnsson, Carbon Recycling International iceland

10:00

Power-to-X: Challenges and Opportunities at the Interface of Energy and Chemistry

Prof. Dr. Walter Leitner, Max-Planck-Institut für Chemische Energiekonversion (Max Planck Institute for Chemical Energy Conversion)

10:20

E-Fuel on the way to commercial production

Gunar Holen, Nordic Blue Crude AS, Norway

10:20

Discussion

11:00

Coffee break

Subject to further change

INTERNATIONAL GREEN WEEK
18 – 27 JANUARY 2019

Participation fee:

The participation fee for the conference "Fuels of the future 2019 (including food and drinks during the conference days, lunch buffet and evening reception)

- 690,- EUR (+19% Mwst) registration until 30th of November 2018
- 890,- EUR (+19% Mwst) registration from 1st of December 2018
- 490,- EUR (+19% Mwst) for members of the organizers
- 190,- EUR (+19% Mwst) student (student identity card necessary)
- Press: free (Press card necessary)

The number of participants is limited. Valid is the order of registration.

Please note that you can only participate when the full fee has been paid.

For more information please see: <https://www.fuels-of-the-future.com/programm/>

Organizers: Federal Bioenergy Association (BBE), Union for the Promotion of Oil and Protein Plants (UFOP), German Bioethanol Industry Association (BDBe), Association of the German Biofuel Industry (VDB) and the German Biogas Association

09:00 - 11:00

Fuels of the Future - Forum 4B Bioethanol

Chair: Carola Wunderlich, German Bioethanol Industry Association (BDBe)

9:00

High Octane fuels: What E20 will bring to society and the climate

Zoltán Szabó, Ethanol Europe Renewables Ltd.

9:20

Cellulosic ethanol - Providing technologies for 2G ethanol plants

Rahul Dagwar, Praj Industries India

9:40

New enzymes for bioethanol production - New Biotechnologies to Enhance Conversion of Biomass to Sugars

Dr. Alex Brogan, Imperial College London

10:00

Decarbonizing the steel production - Turning carbon monoxide into ethanol

Freya Burton, LanzaTech

10:20

Discussion

11:00

Coffee break

Participation fee:

The participation fee for the conference "Fuels of the future 2019 (including food and drinks during the conference days, lunch buffet and evening reception)

- 690,- EUR (+19% Mwst) registration until 30th of November 2018
- 890,- EUR (+19% Mwst) registration from 1st of December 2018
- 490,- EUR (+19% Mwst) for members of the organizers
- 190,- EUR (+19% Mwst) student (student identity card necessary)
- Press: free (Press card necessary)

The number of participants is limited. Valid is the order of registration.

Please note that you can only participate when full fee has been paid.

Subject to further change

INTERNATIONAL GREEN WEEK
18 – 27 JANUARY 2019

09:00 - 11:00

Fuels of the Future - Forum 4C Biodiesel

Chair: Professor Jürgen Krahl, President of the Ostwestfalen-Lippe University of Applied Sciences, Chairman of the UFOP Expert Commission 'Biofuels and renewable resources'

9:00

Biodiesel as part of the solution for mixed fuels in future

Prof. Dr. Thomas Garbe, Volkswagen AG

9:20

The influence of biofuels on emissions - RDE as a useful tool for fuel design

Martin Kortschak, Technologietransferzentrum Automotive der Hochschule Coburg TAC

9:40

Biodiesel aging - oxidizing mechanisms, engine usability and countermeasures

Prof. Dr. Lukas Möltner, MCI Management Center Innsbruck

10:00

Research on aging patterns for various gasoline and diesel fuels in plug-in hybrid vehicles

Anja Singer, Technologietransferzentrum Automotive der Hochschule Coburg (TAC, Technology Transfer Center for Automotive Technology)

10:20

Discussion

11:00

Coffee break

Participation fee:

The participation fee for the conference "Fuels of the future 2019 (including food and drinks during the conference days, lunch buffet and evening reception)

- 690,- EUR (+19% MwSt) registration until 30th of November 2018
- 890,- EUR (+19% MwSt) registration from 1st of December 2018
- 490,- EUR (+19% MwSt) for members of the organizers
- 190,- EUR (+19% MwSt) student (student identity card necessary)
- Press: free (Press card necessary)

The number of participants is limited. Valid is the order of registration.

Please note that you can only participate when the full fee has been paid.

For more information please see: <https://www.fuels-of-the-future.com/englisch/>

Organizers: Federal Bioenergy Association (BBE), Union for the Promotion of Oil and Protein Plants (UFOP), German Bioethanol Industry Association (BDBE), Association of the German Biofuel Industry (VDB) and the German Biogas Association

09:00 - 11:00

Fuels of the Future - Forum 4D Biomethane within the transport sector in Germany

Chair: Dr Claudius da Costa Gomez, German Biogas Association, FvB

09:00

Biomethane as a fuel - new market potential and incentives from RED II

Horst Seide, Fachverband Biogas e.V. (Professional Association for Biogas)

09:20

Regional resources for regional fuel - possibilities for providing and using bio methane as a future option for existing biogas installations in Thuringia

Frank Scholwin, Institut für Biogas, Kreislaufwirtschaft & Energie (Institute for biogas, circular economy & energy)

09:40

Fuel protection as a future perspective for biogas installations - Analyzing the potential of and case study on the local production of bio LNG

Michael Kraleman, 3N Kompetenzzentrum Nachwachsende Rohstoffe e.V. (3N Competence Center for Renewable Resources)

10:00

Reaching a climate-neutral form of waste management through bio methane

Lars Nehrling, Remondis SE & Co. KG

10:20

Subject to further change

INTERNATIONAL GREEN WEEK
18 – 27 JANUARY 2019

Climate friendly mobility with biomethane - Projects and initiatives from North Rhine-Westphalia

Alexander Holle, EnergieAgentur NRW (Energy Agency NRW)

10:40

Discussion

11:00

Coffee break

Participation fee:

The participation fee for the conference "Fuels of the future 2019 (including food and drinks during the conference days, lunch buffet and evening reception)

- 690,- EUR (+19% MwSt) registration until 30th of November 2018
- 890,- EUR (+19% MwSt) registration from 1st of December 2018
- 490,- EUR (+19% MwSt) for members of the organizers
- 190,- EUR (+19% MwSt) student (student identity card necessary)
- Press: free (Press card necessary)

The number of participants is limited. Valid is the order of registration.

Please note that you can only participate when the full fee has been paid.

Organizers: Federal Bioenergy Association (BBE), Union for the Promotion of Oil and Protein Plants (UFOP), German Bioethanol Industry Association (BDBE), Association of the German Biofuel Industry (VDB) and the German Biogas Association

11:30 - 13:30

Fuels of the Future - Forum 5A Alternative biofuels

Chair: Professor Thomas Willner, University of Applied Sciences Hamburg

11:30

Strategies for overcoming the main barriers to the successful market roll-out of advanced fuels - Approaches of the "AdvanceFuel"-Project

Kirstin Sternberg, Fachagentur Nachwachsende Rohstoffe e.V. (FNR, Professional Agency Renewable Resources)

11:50

The opportunities of Advanced Biofuels - The urgent need to scale up for decarbonization of transport

Marko Janhunen, UPM Biofuels

12:10

Advanced bio-based and recycled carbon fuels - will there be a demand, and can they deliver?

Sabine Ziem-Milojevic, E4Tech

12:30

Which impact do advanced fuels have on applications? Fit for purpose testing can deliver the answer

Dr. Klaus Lucka, TEC4FUELS GmbH

12:50

Advanced and bio fuels - Contributing to the energy transition by decarbonizing industry and the transport business: an industrial perspective and our own developments

Dr. Armin Günther, Air Liquide Global E&C Solutions Germany GmbH

13:10

Discussion

13:30

Lunch break

Participation fee:

The participation fee for the conference "Fuels of the future 2019 (including food and drinks during the conference days, lunch buffet and evening reception)

- 690,- EUR (+19% MwSt) registration until 30th of November 2018
- 890,- EUR (+19% MwSt) registration from 1st of December 2018
- 490,- EUR (+19% MwSt) for members of the organizers

INTERNATIONAL GREEN WEEK
18 – 27 JANUARY 2019

The number of participants is limited. Valid is the order of registration.

Please note that you can only participate when the full fee has been paid.

For more information please see: <https://www.fuels-of-the-future.com/englisch/>

Organizers: Federal Bioenergy Association (BBE), Union for the Promotion of Oil and Protein Plants (UFOP), German Bioethanol Industry Association (BDBe), Association of the German Biofuel Industry (VDB) and the German Biogas Association

11:30 - 13:30

Fuels of the Future - Forum 5B Biofuels for aviation and shipping

Chair: Lars Schulze-Beusingsen, EnergyAgency.NRW

11:30

Biofuels for aviation - essential to reduce carbon emissions from commercial aviation?

Jeffrey Skeer, International Renewable Energy Agency (IRENA)

11:50

Options to produce fuels based on electric power in Germany for sustainable air traffic in the future

Dr.-Ing. Ralph-Uwe Dietrich, German Aerospace Center DLR

12:10

MY Renewable Jet Fuel - Options for the reduction of greenhouse gas emissions in aviation

Henrik Erämetsä, Neste

12:30

Biofuels for the marine shipping sector - Fuel Technologies, infrastructure and regulations

Prof. Claus Felby, University of Copenhagen

12:50

Roadmap Sustainable Biofuel for Shipping

Loes Knotter, Dutch Platform Sustainable Biofuels

13:10

Discussion

13:30

Lunch break

Participation fee:

The participation fee for the conference "Fuels of the future 2019 (including food and drinks during the conference days, lunch buffet and evening reception)

- 690,- EUR (+19% Mwst) registration until 30th of November 2018
- 890,- EUR (+19% Mwst) registration from 1st of December 2018
- 490,- EUR (+19% Mwst) for members of the organizers
- 190,- EUR (+19% Mwst) student (student identity card necessary)
- Press: free (Press card necessary)

The number of participants is limited. Valid is the order of registration.

11:30 - 13:30

Fuels of the Future - Forum 5C New drive train and mobility concepts

Chair: Johannes Daum, NOW GmbH

11:30

Following the expansion of the charging installations for e-vehicles to reach a comprehensive and needs-based infrastructure in a model approach

Waldemar Brost, ISB RWTH Aachen

11:50

Enablers and barriers of integrated urban mobility concepts

Subject to further change

INTERNATIONAL GREEN WEEK
18 – 27 JANUARY 2019

Paul Fenton, City of Stockholm

12:10

New drive-trains within public commuter transportation: RVK's fleet of fuel cell-hybrid busses

Jens Conrad, Regionalverkehr Köln GmbH (RVK)

12:30

Biorefining at the center of the long-term energy and transportation matrix

Carlos Ocampo, Novozymes A/S

12:50

Fuel mix in heavy load traffic

Matthias Spöttle, Ecofys - A Navigant Company

13:10

Discussion

13:30

Lunch break

Participation fee:

The participation fee for the conference "Fuels of the future 2019 (including food and drinks during the conference days, lunch buffet and evening reception)

- 690,- EUR (+19% Mwst) registration until 30th of November 2018
- 890,- EUR (+19% Mwst) registration from 1st of December 2018
- 490,- EUR (+19% Mwst) for members of the organizers
- 190,- EUR (+19% Mwst) student (student identity card necessary)

5th Federal Show Robust Ponys

Category	Date	Time:	Location
Public Event	January 22, 2019	10:00 - 14:00	Hall 25

Round about 160 stallions are competing at the 5th Federal Stallion Show on the international green week 2019.

The show of the sports ponys takes place from January 18th to 20th. Four- to twelve-year old stallions from the breeds German Riding Pony, New Forest Pony, Connemara Pony and Welsh Pony of the selection A, B and C as well as Welsh Cob are participating. From January 21st to 22nd the stage is free for four- to twelve-year old stallions from the breeds Shetland Pony, German Part-Bred Shetland Pony, German Classic Pony, Dartmoor Pony, Dülmener, Fell Pony, Highland Pony and Mérens. Participating stallions must be registered in the relevant stud book of a breeding association. You can find detailed information about horse breeding at the stand of the German Equestrian Union in hall 25.

Blooming City: Urban scenery in bloom in January

Landgard and “Flowers – 1000 good reasons” add decorative and creative diversity to the Floral Hall at the International Green Week Berlin 2019

When the predominant colour in Berlin in January is a wintery grey, Landgard and the initiative “Flowers – 1000 good reasons” will be focussing on the floral attractions of a vibrant capital city.

From 18 to 27 January Hall 9. the Floral Hall at the International Green Week Berlin 2019, will be using flowers and blossoms to transform many different urban settings. Under the slogan “Blooming City: colourful – creative – natural”, for ten days visitors to the Green Week will be captivated by this floral diversity and its aesthetic attractions, along with activities by opinion-formers, and the chance to win prizes in various competitions. Landgard, one of Europe’s largest cooperative marketing organisations for plants and flowers, fruit and vegetables, is responsible for designing the Floral Hall at the IGW 2018.

Hall 9 will again present the miracle of flowers

There are other aspects to the slogan “Blooming City: colourful – creative – natural”, that have a particular social relevance to the efforts intended to make our cities greener. Whereas urban gardening represents small-scale implementation at an individual level, modern urban planning is basically concerned with the appearance of the cities in which we will be living in the future. In order to accommodate all the attractive displays of horticulture and urban planning, the Floral Hall is returning to Hall 9, its home for many decades until 2015. It offers 7,500 square metres of exhibition space, where urban scenery can be recreated using over 60,000 flowers and more than 30,000 re-usable pallets. Having met with a positive response, 2019 will feature even more workshops where, for a small charge, visitors can join in and create modern pieces of work under professional supervision, which they can then take home with them. The direct sale of flowers and plants to visitors in the hall is another new feature in 2019.

Polo-Tournament

Category	Date	Time:	Location
Public Event	January 22, 2019	14:00 - 18:00	Hall 25

This year, visitors of the Green Week will be able to enjoy a fast-paced polo tournament, featuring galloping horses, flying sticks and cheering spectators. The three-day ARENA Polo Masters event is a professionally umpired official polo tournament which will be contested under German Polo Association rules. Between four and six polo teams of two players each will take part. Each game consists of four 6 ½-minute chukkas (playing periods), with two to three games held on each day. On January 23rd, at a festive ceremony following the final, a cup will be presented to the winning team, which will include not only the team players but the best competing pony as well. During the intervals between games spectators will be able to visit the horses in their stables, where they can get a glimpse of the grooms preparing the horses as well as information about their maintenance and the game of polo too.

different urban settings. Under the slogan “Blooming City: colourful – creative – natural“, for ten days visitors to the Green Week will be captivated by this floral diversity and its aesthetic attractions, along with activities by opinion-formers, and the chance to win prizes in various competitions. Landgard, one of Europe’s largest cooperative marketing organisations for plants and flowers, fruit and vegetables, is responsible for designing the Floral Hall at the IGW 2018.

Hall 9 will again present the miracle of flowers

There are other aspects to the slogan “Blooming City: colourful – creative – natural“, that have a particular social relevance to the efforts intended to make our cities greener. Whereas urban gardening represents small-scale implementation at an individual level, modern urban planning is basically concerned with the appearance of the cities in which we will be living in the future. In order to accommodate all the attractive displays of horticulture and urban planning, the Floral Hall is returning to Hall 9, its home for many decades until 2015. It offers 7,500 square metres of exhibition space, where urban scenery can be recreated using over 60,000 flowers and more than 30,000 re-usable pallets. Having met with a positive response, 2019 will feature even more workshops where, for a small charge, visitors can join in and create modern pieces of work under professional supervision, which they can then take home with them. The direct sale of flowers and plants to visitors in the hall is another new feature in 2019.

HIPPOLOGICA - The equestrian event of the International Green Week

Category	Date	Time:	Location
Public Event	January 26, 2019	10:00 - 18:00	Hall 25

From January 24th to 27th our HIPPOLOGICA takes place during the International Green Week 2019. The traditional equestrian event is the biggest indoor sports event of the capital city. On four days, horse lovers can gaze at the top-class performances from our daily changing program. In addition, visitors can learn about horse health and training from experts.

Blooming City: Urban scenery in bloom in January

Landgard and “Flowers – 1000 good reasons” add decorative and creative diversity to the Floral Hall at the International Green Week Berlin 2019

Subject to further change

When the predominant colour in Berlin in January is a wintery grey, Landgard and the initiative “Flowers – 1000 good reasons” will be focussing on the floral attractions of a vibrant capital city.

From 18 to 27 January Hall 9. the Floral Hall at the International Green Week Berlin 2019, will be using flowers and blossoms to transform many different urban settings. Under the slogan “Blooming City: colourful – creative – natural”, for ten days visitors to the Green Week will be captivated by this floral diversity and its aesthetic attractions, along with activities by opinion-formers, and the chance to win prizes in various competitions. Landgard, one of Europe’s largest cooperative marketing organisations for plants and flowers, fruit and vegetables, is responsible for designing the Floral Hall at the IGW 2018.
